

## **Coronavirus (Covid- 19)**

### **AN UPDATE FOR ALL OUR CUSTOMERS!**

RMS Training wishes to advise that during this challenging health crisis our priority is to protect the wellbeing and health of our employees and customers.

We are doing this by providing clear guidance and leadership to our staff together with the implementation of best practice infection control procedures throughout our premises.

- All staff have participated in an infection control education session conducted by a Registered Nurse and are therefore fully aware of recommended cleanliness and hygiene practices.
- All students will be required to use hand sanitiser upon entry to RMS and throughout their time at our premises
- All surfaces including desks, door handles, counters and equipment are being cleaned with Isopropyl alcohol multiple times during the day
- Class numbers will remain small
- Social distancing will be encouraged

We ask that all clients contribute to facilitating best practice through:

- Frequent handwashing
- Covering of your cough or sneeze (into elbow)
- Responsible personal health management (if sick do not attend)

We are confident of business as usual but will monitor the situation daily to ensure that all are protected. We ask that you join us in what will be a communal approach to ensure that we can contribute to reducing the risks for all and stemming the impact of this virus.
